Test Automation Engineer

GlobalLogic

01/2019 - 10/2020 Kraków, Poland

- Collaborated with the team to create a testing framework for embedded applications. Prepared the test environment (host with virtual machines). Designed and automated test cases based on requirements. Set up Jenkins jobs and test reports (CI). Actively participated in Scrum/Kanban framework. Responsible for error and bug reporting (Jira).

Test Automation Engineer

Infover

01/2017 - 01/2019 Kielce

- Created test architecture from scratch using **Page Object Pattern (Selenium with C#)**. Performed functional testing for **web, desktop, and mobile applications**. Prepared test suites for **performance testing with JMeter** and test cases for **manual testing** based on requirements. Responsible for **error and bug reporting**.

SUMMARY

A strong technical background in **test automation and quality assurance**, with hands-on experience in designing and maintaining scalable automation frameworks using **Playwright with TypeScript and C#/.NET**. Proven experience in **leading QA teams**, defining test strategies, and integrating automated tests into **CI/CD pipelines (e.g., Jenkins, Azure DevOps)**. Passionate about delivering high-quality software through **robust E2E, integration, and API test coverage**, while continuously improving QA processes. Focused on delivering **impactful, maintainable automation solutions** that align with long-term product and business goals in agile, innovation-driven environments.

KEY ACHIEVEMENTS

- **Enhanced Testing Efficiency**
- **Leadership In Project Delivery**
- **Automation Script Development**
- **Improved QA Process**

SKILLS

Playwright, Selenium, C#, TS, .Net, T-Sql, Jmeter, Postman, Azure Devops, Jira, Specflow/Reqnroll (BDD), OOP

EDUCATION

Degree and Field of Study

Politechnika Krakowska im. Tadeusza Kościuszki

01/2010 - 12/2015
